Many older models have a rich history, and better than that, they could be worth a lot of money.. That information is extremely helpful if you're trying to determine its value or if you're looking to sell your instrument.

As they already owned Gibson, this merge brought the two powerful brand names under one umbrella.. Maybe you have a Gibson banjo, dobro, or a Goldtone amplifier you're not sure about.. Because there aren't any factory ledgers prior to the 1980's for Epiphone, these stamps will give you the closest approximation to their manufacturing date.

During each of these transitions, there were also changes made to how the instruments were labeled, which is part of the reason why the serial number identification process is so confusing.. For example, after 1969, it's unlikely your guitar would have a label saying it was made overseas, but you might have a seven-digit serial number that could tell that story.
